Track Memory Mate - \$10.95 (until 6/1/11)

This Thursday, May 5th, I will be taking posed photos of the Boys' and Girls' Track Team starting at 3 pm. These photos and meet photos can be previewed on the www.selectdigitalmemories.com website throughout the season. Select Digital Memories has created a special memory mate for \$10.95. These prints are also available in a matte or metallic finish.

I know it's kind of weird to have a baseball photo on a track order, but I wanted to give you an idea of what the track memory mate will look like. The team photo will be taken on the track near the corner with the stadium in the background. The foreground will be the track lanes. The individual photo will be placed like the photo in the example with a shadow box behind it.

I will not be taking individual photos of every one, only those that come forward for a posed photo or you may choose a photo from the meet that could be placed on the print. If you have any questions, please contact:
